Great Minds Start Little.™

At The Baby Einstein Company, we know that babies are passionately curious. They are fascinated by the sights and sounds around them, and every moment of every day is an opportunity for discovery. Created by a mom and designed specifically for babies and toddlers, our products provide fun and stimulating ways for parents and caregivers to interact with their children.

Studies have shown that babies begin life as natural linguists. This ability fades as babies grow older. The Language Nursery is designed to expose babies to the sounds of seven foreign languages through recitals of nursery rhymes, alphabets, number sequences, and basic vocabulary. Selections of classical music provide an additional listening dimension.

#### Language Nursery Guide
